The Roxie Theater
San Francisco, CA

FRiFF.co

WELCOME

Welcome to the inaugural Flying Robot international Film Festival. FRiFF is the first international competitive short film festival focused on drone culture and aerial cinema created from the perspective of drones. Over 150 films representing 35 countries were submitted to the festival. 20 of these were selected across 7 categories, which you will see tonight.

FRiFF is awarding prizes in each of 7 categories- Cinematic: Postcard, Cinematic: Narrative, Aerial Sports, Drones For Good, I Made That!, WTF LOL and Student Film. Our judges have chosen finalist and runners-up in each category, totalling 14 winners. Judges have also picked a "best of show" winner.

Sit back, relax and allow the flying robots to stir your imagination.

Eddie Codel
Founder and Festival Director

SHORTS PROGRAM

FRiFF 2016

Flying robots aren't going anywhere but up. This time next year, robots might be entering themselves into the festival. No humans needed! Well, let's hope not. They'll still need us to watch the magic they create. Until next year, keep your propellers spinning and fly safe! We will see you in 2016.
